PARACHUTE COURSE COMPLETED;
NEW AIRPLANE ENGINE DESIGNED

GROUP SEEKING PLANES FOR PRACTICE JUMPS -- Slovenski Porocevalec, No 154, 30 Jun 50

The parachute training course in Gustanj, conducted by Tone Potocnik, ended recently. The 10-month course covered the history of parachuting, parachute nomenclature, and jumping technique. A competition in folding parachutes was also held. The course taught students the theory of parachuting and how to turn in the air.

After completing the course, students are ready to jump from an airplane. However, as the group has no aircraft, they cannot put their knowledge into practice. The Gustanj Air Club hopes that the Slovenian Flying Association will help in this respect.
